Pharmacy
To find out which pharmacies are in the Community First Health Plans network, please call Member Services toll-free at 1-800-434-2347 or go to CommunityFirstHealthCoverage.com and click "Find a Provider" to use our online Provider Directory.

Ancillary Providers
Call Member Services at (210) 358-6070 or 1-800 434-2347 for Ancillary Provider Information.

Please Note
Providers in the Commerical HMO Plan may change from time to time. You can always call Member Services at (210) 358-6070 or 1-800-434-2347 to make sure your doctor is in-network.

How to Use this Directory

If you already have a family doctor, pediatrician or long term services and support provider in mind for your primary care provider, use the alphabetical index to quickly find the doctor's listing.

If you need assistance, we are here to help. Please call Member Services at (210) 358-6070 or toll-free at 1-800-434-2347.

Your Primary Care Provider

Your primary care provider is your own doctor or clinic who will provide or arrange your medical care. Even if you have a true emergency, your primary care provider will manage your treatment so that you get the right kind of care.

If you need to see a specialist, your primary care provider will arrange it for you.

If you need to go in to the hospital, your primary care provider will arrange your stay and manage your care while you are there.

If you have a Medical Emergency (in or out of the Service Area):

- Go to the nearest emergency room.
- Contact your primary care provider within 24 hours, or as soon as possible, so that they can arrange follow-up care.
- Coordinate all follow-up care through your primary care provider.

You can call your primary care provider at any time of the day or night. Someone will always be able to take your call. If you are unable to reach your personal doctor and need help, call the Nurse Advice Line at (210) 358-6070 or toll-free at 1-800-434-2347.

Choose Your Primary Care Provider

This directory was created to help you select a primary care provider. This is important because your primary care provider will help you get your health care benefits. If you do not pick a primary care provider, one will be chosen for you.

You may want to choose a primary care provider close to your home, school, or work. To help you find a provider located near you, this directory is divided by county. Use the Table of Contents to find a list of counties we serve and the page numbers where you can find more information about each primary care provider.

OB/GYN: Attention Female Members

You have the right to select an OB/GYN without a referral from your primary care provider. OB/GYN health care services include, but are not limited to:

- One well-woman checkup per year
- Care related to pregnancy
- Care for any female medical condition
- Referral to special doctors within the network

Community First does not limit your selection of an OB/GYN to your primary care provider's network. However, the OB/GYN you choose must be in the Community First network.

Behavioral Health

Community First Health Plans Members can seek help for a mental health problem from a behavioral health specialist in the Community First network. You do not need a referral from your primary care provider.

Family Planning

You may decide to get family planning services from a clinic or provider who specializes in family planning instead of your primary care provider or OB/GYN. Call Member Services at 1-800-434-2347 for more information about these services or to find a family planning clinic or provider near you. You may also seek family planning by calling a clinic or provider directly. You do not need a referral from your primary care provider.

Vision

Envolve Vision provides vision services for Community First Members. Call Member Services at 1-800-434-2347 if you need help finding a vision provider, or go to EnvolveVision.com and click "Find a Provider."

Facility-Based Physicians

The health care facilities listed in this Provider Directory may have facility-based physicians that do not participate in our provider network. Community First Health Plans Provider Directories list the independent doctors and other health care providers who participate in the Community First network, but we do not participate with all hospitals, health care facilities, physicians or other health care providers that may be in your area. Please review your plan documents to determine how your financial responsibilities may differ if you choose a health care provider or a facility that is not included in your network (i.e., out-of-network).

Additionally, not all facility-based physicians or health care practitioners that provide services in a Community First participating hospital or outpatient facility are in the Community First provider network. We recommend you confirm the network status of facility-based physicians or health care providers before receiving services in order to make an informed decision about where to obtain services. In many instances, there will be a separate charge for professional services rendered by physicians to you on your behalf, and you will receive a bill for these professional services that is separate from the bill for hospital services.

If you receive a bill from a facility-based physician or other health care practitioner, please contact the Community First Member Services Department.

Please Note

Providers in the Commercial HMO Plan may change from time to time. You can always call Member Services at (210) 358-6070 or 1-800-434-2347 to make sure your doctor is in your plan.
